(one sheet) concerning the Ganz Shipyard, Budapest. The report gives information on the construction of 1,500-ton welded hulls at the shipyard in October 1956 and on the planned use of three uncompleted yards in the construction of 3,000-ton hulls for the USSR. The sketch, with legend, shows the detailed layout of the Ganz Shipyard, indicating the location of its various installations and pieces of equipment.

GANZ Shipyards BUDAPEST

25X1

1. At Appendix A. will be found a sketch-plan of the extension of GANZ shipyards in the "LACKOVICS settlement" on the NEPSZIGET island in the Danube at BUDAPEST, with appropriate legend at Appendix B.

2. In October 1956 these yards were building welded hulls of 1500 tons, the construction of each taking 5 months with a labour-force each of 300 men. Three yards, Nos 4, 5 and 6, are still not completed; when they are, they will be put to the building of 3000-ton hulls for the Soviet Union.

3. These yards can be, and are on occasion, used as auxiliary repair-points for military tanks.
